# SEED AND SEED COATINGS

# POND DYES

**Your First Source  
Solution  
for  
Agrochem  
Colorants**

Dyes and pigments are used in the agrochemical industry in various areas including seed, mulch, fertilizer, foliage/flower, and pond dye coloration applications. The products run the full color range and are available in both liquid and powder forms. This brochure contains agrochem colorant products that First Source has available.
